[Add you finish here]

Options

[Add you finish here]

ie, Pressed, sponged, pitted, dragged, polished, metallic or per sample.

Colour

Colour no [add our colour number here]

Sample reference [add number here]

Custom colours [add a reference here, ie RAL or paint number]

Plaster finishes are not a uniform colour and will have natural shade variations. Small samples may not show this.

Thickness

0.5mm to 1mm on skim coated substrates not using our anti crack system.

2mm to 3mm using our anti crack system. [Highly recommended]

Programme

Application times will vary depending on the specific project. Finishes need to be applied late in the construction normally when decorating is taking place. Applications are normally booked 8 weeks in advance. Chamois has a minimum 2 days application time due to the various required layers. Please contact Walleffects for specific application times.
